

Starting Attribute Scores

50.10 - Increased BA Pilot Charisma by 1

Attribute scores are covered in *A Time of War* and for the most part *MekHQ* faithfully follows those rules. Each skill has one or more linked attributes, and depending on the score the character has in those attributes they will enjoy a bonus (or penalty) to that skill.

Disclaimer: In versions prior to 50.07 attribute scores do not impact skill checks.

As the differences between *MekHQ* and *A Time of War* are minor they won't be covered here, instead we will be focusing on starting attributes for each role. These starting attribute scores are based on the Archetypes found in *A Time of War* and *A Time of War: Companion* and can be changed by chance (if randomized attributes are enabled) and phenotype.

When a character is generated only their primary role is used to determine starting attributes.
